General Prostration, or any of the consequences of youthful
indiscretion, or indulgence of the passion in riper years, renders it the most valuable preparation ever discovered.
In fact, as a remody for the above complaints, it stands unrivalled and alone. There is no other reliable remedy, or
any that has authentically received the sanction of the
Medical Faculty. The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been
tested, and its virtues proclaimed, by the highest names of
the faculty of London, Paras, and the objectives of Europe,
as well as by eminent Physicians in this country. It is the
only infallible remedy for NEEVOUS, HEAD, and MIND
COMPLAINTS—the mental physic so long sought for and
never before found—the only agent that can administer to
MIND DISEASES. It will remove all nervous affections,
DEPRESSION, EXCITEMENT, incapacity to study or busimess, loss of MEMORY, CONFU-ION, thoughts of selfdestruction, fear of insanity, &c. It will restore the appetite, ronow the health of those who have destroyed it by
some that these disorders, emissions, &c., were incurable.
This, however, is not the fact.

DR MORSE'S INVIGORATING CORDIAL has cured,

and is coustantly curing, these complaints—relieving the mental and bodily incapacity of the unfortunate sufferer, as the following testimony of the names received will conclusively show!

Dr. Woodward, of ——, Massachusetts Insane Hospital, writes of one of his patients being cured by using this Cordial thus: "It gives me pleasure to inform you that one of my patients, while in Boston, procured some of your Cordial. He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week. When he applied to me," says Dr. W., "I thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effect. In the mean time he purchased some of your Cordial, which has effected a cure I am suire no other medicine would. I shall ever recommend it, whenever an opportunity occurs."

The nature of the malastics relieved by this Cordial are generally such as to leave the publication of certificates of cures out of the question. The proprietor could produce a host of the most conclusive testimony to show that the great reputation it enjoys was not accidentally obtained, but is firmly based upon its positive and apparently miraculous virtues. In all directions are to be found the happy parents of healthy offsprings, who would not have been so but for this extraordinary preparation. And it is equally potent for many diseases for which it is recommended.

THE COMMON EXPRESSION.

Of those who have used this Extract is: "I had heard your Cordial highly spoken of, but was one of the incredulous in regard to its merits, having tried various medicines sold for the same purpose, (different Sarsaparillas,) without deriving any benefit. I had almost given up all hope of obtaining relief, when I purchased some of your Cordial. I had no faith whatever of its benefiting me—but it has. cured me."

Another says: "I was surprised at the effect your Cordial had. Why had I not heard of it before? It would have saved me so much expense, besides years of mental and bodily suffering."

CAUTION.—Ask for Dr. Morse's Ordial, and take no other, as there are worthless imitations which its unrivalled excellence, fame, and popularity have brought into the market. It will not hurt the most delicate female, but do good. Beware of all other Cordinia, &c., and try only this. It is put up in plut bottles, with the words Dr. MORSE'S INVIGORATING CORDIAL blown on the glass. Price \$3 per bottle; two bottles, \$5; six: bottles, \$12; and \$24 per dozen.

MARRIAGE.

Married persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health.

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with ringing in the ears and head when asleep, great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE. TAKE PARTICULAR NOTICE.

Love of Solitude, Timidity, &c., are some of the evils produced.

NERVOUS DEBILITY.

Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its Victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Lyspepala, Indigestion, derangement of the Nervous System, Cough, and Symptoms of Consumption; also those serious Mental effects, such as loss of Memory, Depression of Spirits, or peculiar fits of Melancholy, when the truth is, they have been caused by indulging in Pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their Country, a pleasure to their friends, and ornaments to Society.

DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS.

This graud and important Remedy has restored strength and vigor to thousands of the most debilitated individuals, many who had lost all hopes, and been abandoned to die. By its complete invigoration of the Nervous System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upon the ruins of an emaciated and premature decline, to sound and pristine health. Oh, how happy have hundreds of misguided youths been made, who have been suddenly restored to health from the devastations of those terrife maladies which result from indiscretion! Such persons, before contemplating

MARRIAGE,
should reflect that a sound mind and bedy are the most ne-

uals destitute of knowledge, name, and character—pediars, shoemakers, mechanics, &c., advertising themselves as physicians; ignorant quacks, who keep you trifling month after mouth, as long as possible, and in despair leave you with ruined health to sigh over your gailing disappointment. It is this motive alone that induces Dr. J. to advertise, for he alone con cure you. CHICAGO, September 3, 1850.

This may certify that I have examined, somewhat critically, James Spratt's Patent Lightuing Rods, and that I am of opinion that it is constructed on scientific principles. For combining durability, cheapness, and efficacy, I deem it equal, and I think superior, to any other rod ever offered for my inspection.

Prof. JAS. V. Z. BLANKY.

For my inspection.

AUGUSTA, (GA.) November 11, 1850.

This will certify that I have examined the Lightning Rods, Metallic Points, and Isolating Attachments, manufactured by Mr. Spratt, and regard them as constructed in conformity to the general laws of the electric fluid; and the metallic compound constituting the Points, as promising, from the result of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.

A. MEANS, Prof. Phys. 8c., Emory College, Ga., and Prof. Chem. and Pharms, Medical College, Ga.

The Lightning Conductors put up by Mr. Heury M. Smith, of this city, on the plan of Mr. Spratt, appear to me to be very well devised; and, in point of mechanical construction,

very well devised; and, in point of mechanical construction, are the best I have ever seen.

It is to be hoped that the use of those Rods may become general, as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.

AMERICAN TELEGRAPH.

The Pay of Clerks, &c.

The following is the section inserted in the civil and diplomatic appropriation bill:

compensation does not exceed twelve hundred dollars per annum, shall, in addition thereto, be allowed the following annual increase of com-pensation, commencing from the first day of the resent fiscal year, viz: All whose annual compensation does not exceed twelve hundred dollars hall, in addition thereto, be allowed an increased compensation of twenty per cent., and that the same shall be paid out of any money in the Treasury not otherwise appropriated: Provided, That this section shall not extend to any person receiving a salary for discharging the duties of more than one office at the same time, or to any person who does not actually discharge the duties of the of-fice for which he receives such salary, or to any person engaged in prosecuting any claim other than his own before any of the departments or Congress. And that, in case any paying or dis-counting officers of the government shall pay said additional per centage to any such person, it shall be a misdemeanor in the person knowingly paying or receiving such additional per centage, rendering each liable to indictment and punishment: Provided, further, That the provisions of this section shall not apply to any person whose compensation has been increased at the present session of Congress."

A correspondent objects to the above on the ground that it elevates some above others who have long received thirteen or fourteen hundred dollars; but we do not see the force of the objection. If the latter think they should receive increased pay, they can be heard; but increasing the pay of such as have long toiled for low compensation inflicts no injury upon others.

He fears also that the proviso will cut off clerks who have lately received pay for extra services. But that is impossible, as the regular compensation for the usual duties is alone referred to. The proviso forbidding the holding two offices does not preclude extra pay for extra services in one. We have, however, no objection to this being rendered more explicit.

It is also argued by our correspondent that, as many \$1,000 clerks are soon to be dismissed, the bill should have a retrospective application, awarding the additional compensation for services during the past year. We are opposed to such things. A bounty for meritorious services, &c., is at times well enough; but an extraordinary case alone should demand it. What is just and reasonable, and accordant with usage, may well be asked; but anything beyond this we would oppose.

We would have preferred Mr. Gentry's proposition, but the House has manifested a considerate and liberal spirit, and with its action all should be satisfied.

We are levellers, but we prefer levelling upward. We never have any objection to the progress of the high; but our chief pleasure is in the elevation of the lowly. The House has done well, and merits universal thanks.

citizens by our government.

"Mr. Webster has recently given his opinion as Democracy. to the American right in the matter; and, though that it shall not be made public, yet, like all govbeen published. In that letter, Mr. Webster majority was adopted. takes the ground that, unless the islands lie within a marine league of the continent, or have been discovered by Spain or Peru, the Americans first ballot, receiving 192 votes; and George W. cannot be excluded. The islands are between thirty and forty miles westward of the Peruvian coast; and it is claimed that they were discovered by Benjamin Morrell, jr., an American. Under these circumstances, Mr. Webster considers it Under yesterday's date, at Petersburg, we have the duty of the American government to protect the Americans visiting those islands from any attempts of Peru to prevent them. The game practised by the British authorities in the fishing vaters will not be allowed in the South Pacific. A vessel of war has been ordered to the islands to protect American rights; and it is said that some of the trading vessels have gone out armed, to resist any attempt to interfere with their business. We learn from New York that, within the last three months, ten ships have left that port to load with guano, and that they are armed, under the special authority of our government; in which case there is likely to be a sudden collision, if the Peruvians shall be rash enough to attempt to maintain a doubtful claim by force,

however backed by Great Britain. "These Lobos Islands are uninhabited, except by penguins and other sea-fowls, whose occupancy gives them the only value they possessthey being the only producers on that otherwise sterile soil. Peru has a rightful possession of the Chincha Islands, and demands forty-five dollars per ton from traders who take the guano. She appropriates the money to the liquidation of the debt that she owes to her English creditors. The business has become so profitable-for guano s found to be such an excellent manure that there is an immense demand for the article—that the Lobos Islands, to which Peru has no indisputable right which would warrant the summary proceedings she seems disposed to adopt towards American vessels, has excited her cupidity as a further means of discharging her debt; and so doubt by her British creditors, and backed up by example-his courage, his energy, and his virtues."

the British government, which has acknowledged her claim. Our government, having its attention called to this subject by the complaints of American citizens, who are excluded by the above arrangement from any share in what is justly "Be it further enacted, That the clerks, messengers, watchmen, and laborers, employed at an annual salary or in temporary positions in the executive and legislative departments of the government in the city of Washington, whose
